The California

Brochure and price list

Travel could have been invented for the California.

The California offers you complete motoring comfort. Enjoy its car-like agility and experience the superior performance of the modern TDI diesel engines with 'Pumpe Duese' technology, available in 130PS and 174PS variants. The California is extremely sure-footed – high body rigidity, large anti-roll bars, McPherson suspension struts and independent rear suspension combine to ensure a dynamic driving experience. Safety is paramount to Volkswagen, which is why Anti-lock Brake System (ABS), Electronic Differential Lock (EDL), Traction Control System (TCS), Engine Braking Control (EBC), Electronic Stabilisation Programme (ESP) not to mention driver, passenger, side and front curtain airbags all come as standard. 4MOTION®, Volkswagen's all wheel drive system, is available with the 174PS engine.

Even the kitchen sink.

The California is a real home from home. Everything you need for cooking is ready and waiting: a two-burner hob, a sink with a drawer and cutlery tray underneath as well as a handy cool box. And with all the storage space in the California, there's plenty of room for your pots, pans, dishes, and plates too. The kitchen unit of the California comes with a movable and folding worktop as standard, which is also designed for use as a table.

The interior of the new California meets even the highest expectations. All the components have been designed using innovative ideas and materials. For example, the wood-trimmed cupboard fittings are made of lightweight material to reduce the overall weight of the vehicle, whilst the corrugated inner core of the aluminium panels ensures the stability of the cupboard surfaces with curves instead of sharp edges. The fresh water and waste tanks are protected against frost and each has a capacity of 30 litres. In addition an AC converter, with a 230V socket, is conveniently located behind the B-pillar trim. This useful feature enables the brief use of electrical equipment without the trouble of connecting to the external 230V mains hook-up.

01

02

03

04

- 01** Cooker and sink combination featuring a two-burner hob with Piezo-ignition, situated on the left next to the high-grade steel sink. Both feature a glass cover.
- 02** This compact 42 litre compressor cool box is top-loading with a basket insert.
- 03** The lower cupboard is equipped with two sliding doors, these can still be opened when the bed/ bench is pulled out.
- 04** The standard folding table and folding chairs are suitable for internal or external use. The table can be stored in the side door whilst the seats stow neatly in the tailgate.

Flexibility comes as standard.

Anyone who likes to go in search of wide open spaces will feel happy in the California. The bench, which can be moved smoothly to the rear of the vehicle on rails, can be quickly converted into a bed measuring 114 x 200cm. At the touch of a button, the electrically powered roof rises to reveal the spacious upper berth. With mosquito nets to give you all the fresh air you need and a blind to separate it from the lower cabin area, you can be sure of a great night's sleep – leaving you refreshed for the next adventure.

The swivelling front seats and an adjustable free-standing table (which is conveniently stored in the sliding door) mean that mealtimes in the California are always a sociable affair. For times when more seating is needed, the optional fifth seat can be placed in the living area, and removed when no longer needed. And during those warm, summer evenings, why not relax outside and watch the sun go down in the two standard folding seats, which are cleverly stored in the tailgate.

- 01** The bed in the living area measures 114 x 200cm. To enlarge the luggage space, the cover can also be locked in a higher position.
- 02** The bed in the roof area measures 120 x 200cm. The slatted frame has a padded mattress for comfort.
- 03** A safety net can be attached to the upper berth.
- 04** The cab access to the roof space can be closed off with a blind.

Seats - additional single folding, swivelling and removable passenger seat for rear (not 4MOTION®) ⁶	255.32	44.68	300.00

† Calculated at 17.5% on all products.

* For OTR price calculations, the maximum possible Road Fund Licence value has been used. Please check with your Volkswagen Van Centre prior to ordering.

¹ **Privacy glass:** All rear and side windows from 'B' pillar back are dark tinted.

² **Satellite navigation:** Replaces radio/in-dash CD player, includes RDS radio function and CD changer control, where fitted (satellite navigation unit does not play audio CDs).

³ **Towbar:** An adaptor is available from Van Centres, to allow connection to twin 7 pin sockets. Only one front towing eye with towbars.

⁴ Alternator upgraded to 180A.

⁵ **Alcantara® and leather upholstery:** Seat material in contact with passengers is leather, other areas are leatherette.

⁶ **Seats:** Additional seat with armrests, reach and rake adjustment, storage drawer in base.

California SE standard equipment.

Body.

- 2 front doors
- 80 litre fuel tank with secure flap
- Body coloured bumpers, exterior mirrors and protective side moulding
- Chrome trim on radiator grille
- Clear glass headlights
- Covered sliding door guide
- Insulating double glazed glass in living area (except sliding window)
- Jack and tool kit
- Mirrors: convex with lower wide angle section on passenger's side, spherical with outer wide angle section on driver's side
- Pop-up aluminium roof (electro-hydraulically activated) with 2 attachment rails for roof luggage rack system (roof load max 50kg), exterior mounted stay arm and self-furling bellows.
- Right side sliding door
- Roof load rack preparation
- Self supporting and galvanised full steel body
- Tailgate, double glazed
- Tinted cab windows
- Towing eyes, front screw-in and rear fixed to body
- Underbody made up of long and cross members

Interior equipment front.

- 1 hook on lower dash on front passenger side
- 1 open storage compartment in dash panel including mobile phone holder
- 2 drinks holders
- 2 silicone-damped grab handles above cab doors and grab handle at 'A' pillar, left
- 2 storage compartments in driver and passenger door, lower holds 1.5 litre bottle
- 2 sun visors, folding and pivoted with vanity mirror and document pocket
- Ashtray
- Blackout for night use on windscreen and cab doors
- Carpet floor covering
- Centre console
- Dash mounted gear lever
- Driver and passenger swivelling seats with lumbar support and armrests
- Fabric push-on frame insert to shade door window
- Front floor mats
- Interior entry steps, illuminated

Interior equipment front. (continued)

- Interior light and two reading lamps in overhead console, with switch-off delay
- Leather covered steering wheel, handbrake grip and manual gear knob
- Lockable glove compartment
- 'Scala' fabric seat covers
- Storage compartments in dash panel beneath outer air vents
- Storage compartments in outer side of driver and passenger seats
- Storage net on lower dash passenger side
- Storage pockets on front seat backrests

Interior equipment living area.

- 1 fluorescent light and 5 LED spotlights, switched individually
- 1 light in luggage compartment (tailgate activated)
- 2 folding chairs (stored in tailgate)
- Clothes cupboard and storage compartment, rear left
- Cooler 'Waeco': 42 litre capacity, cooling system compression unit
- Draw curtains for side windows, rear left
- Drinks holder
- Flexible worktop (attached to kitchen cabinet, adjustable)
- Floor with plastic safety cover
- Folding table (stored in sliding door)
- Fresh water container, approx 30 litres: filling outside vehicle, rear left, with access for cleaning
- Fresh water submersible pump
- Gas cooker: 2 burners, burner power approx 1000W/1800W, power from 2.8kg gas cylinder (not supplied), energy consumption rated approx 140g/hr
- Interior entry step with automatic illumination switch-off
- Kitchen unit: sink/cooker combination with height adjustable safety cover, sink: stainless steel with height adjustable single tap (with switch for water pump) and removable washing-up bowl, drawer for cutlery, storage space with 2 sliding doors
- Reclining bench/bed, adjustable and tilting: backrest adjustable to 3 positions, folding, articulated and adjustable headrests, storage compartment under bench seat, removable integrated seat belts, length 114 x 200cm together with bed cushions

California SE standard equipment. (continued)

Interior equipment living area. (continued)

- Roof bed (120 x 200cm) with gas-spring supported pivoting mechanism: ventilation windows in sides (closable) on left and right, mosquito net, comfort slatted frame, foamed plastic padding (55mm), insertable child safety net and flexible halogen lamp
- Safety tank valve: gas pressure regulator, shut-off valve for gas feed
- Sliding windows with flyscreens
- Waste water tank: protected against freezing in passenger compartment, capacity approx 30 litres

Functional equipment.

- 4 12V sockets in living area
- Air conditioning dashboard, manually controlled, with dust and pollen filter
- Electric windows, front
- Electrically adjustable, heated and folding exterior mirrors
- Heated front seats
- Heated washer jets, front
- Instrument illumination, dimmable
- Instrument panel includes brake fluid level indicator, brake pad wear indicator, failure of brake hydraulic circuit, coolant temperature display, external temperature display, digital clock, fuel gauge, rev counter, trip computer, speedometer with total mileage and trip counter, warning lamps for handbrake applied, door/tailgate opening and washer water level, visual and acoustic driver's seat belt reminder
- Parking heater with radio remote control
- Radio/in-dash CD player (2 DIN) with 8 speakers
- Remote central locking with deadlocking and internal locking button, 2 remote keys supplied
- Separately controlled heating system for living area
- Side sliding door with power latching
- Steering column, height and rake adjustable
- Tailgate with power latching
- Vented moulded trim above side windows in passenger compartment
- Warning buzzer for lights left on
- Windscreen wiper with 2-speed operation and variable intermittent delay

Running gear.

- 16" running gear
- Alloy wheels, 'Miyato' 16" 6.5J x 16
- Front and rear axle: anti-roll bars, front and rear, front McPherson strut suspension, independent suspension, rear miniblock springs, telescopic shock absorbers
- Hydraulic brake system with ventilated disc brakes and ABS: Anti-lock Braking System
- Power steering
- Rear differential lock (4MOTION® only)
- Steel spare wheel
- Tyres: 215/65 R16

Safety and security equipment.

- 2 reversing lights
- 3rd brake light
- ABS: Anti-lock Braking System
- Airbag for driver and passenger with passenger airbag deactivation
- Airbags, side and front curtain
- Anti-theft protection: alarm with interior and tow away protection, deactivation switch for both functions on 'B' pillar, breaksafe steering wheel lock, electronic immobiliser, locking wheel bolts
- Childlock on sliding door
- Dual tone horn
- EDL: Electronic Differential Lock
- ESP: Electronic Stabilisation Programme including Active Rollover Protection (ARP), brake assist system, maximum brake support, prefill and Rain Brake Support
- First aid bag and warning triangle
- Fog lights, front and rear
- Halogen main headlights
- Headlight range control
- Head restraints, height and tilt adjustable for all seats
- Rear view mirror anti-dazzle function
- Seat belts, 3 point inertia reel integrated into rear seats
- Seat belts, 3 point with height adjustment and tensioners for front seats
- Side mounted indicators
- TCS: Traction Control System (not 4MOTION®)

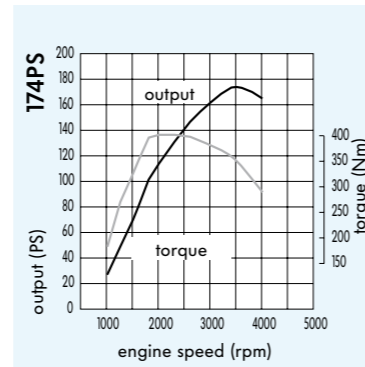

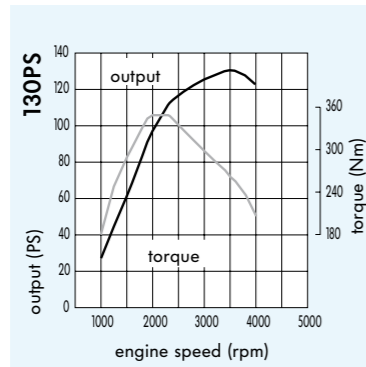

Electrical equipment.

- 1 earthed outlet in living area
- 12V system
- 230V system with battery charger
- AC converter with 230V socket
- Adaptor cable (CEE 22/grounded plug)
- Alternator 180Ah
- Batteries: 72Ah, 2 auxiliary batteries (maintenance free) with cut-off relay for powering living area (cooler etc.)
- Battery charger (current and voltage regulated)
- Central electronic system with waking alarm function in cab above interior mirror for control and status check of: battery charge level, battery capacity, cooler (digital temperature setting), outside temperature, fresh water supply (3 settings), waste water level (3 levels), charger display, activation of electric pop-up roof, parking heater display and control
- Charging via alternator or battery charger
- Circuit breaker (FI/LS 0.001/13A)
- Cooler: power consumption - approx 50W @ 100% on-time, average on-time approx 30%, running noise under 35dB (A), classification *** (to -18°), operation electric 12V
- Fuses for power consuming devices in living area
- Supply via CEE outlet on outer side, rear left

Notes:

The height measurements listed here may vary by ± 20mm depending on equipment fitted.

* Vehicle height is influenced by the choice of tyres. Height measurements can vary by up to ± 5 mm depending on the tyre size. Roof load limit 50kg, trailer nose weight 100kg.

¹ For 12% gradient.

² Payload relates to vehicles without options, which may increase unladen weight and decrease payload.

³ Guideline figures only for roof elevation.

The vehicle drawings are not to scale.

Standard features.

Electro-hydraulic pop-up roof.

The aluminium elevating roof is operated at the touch of a button. The electro-hydraulic mechanism means the roof can be raised quickly and easily. Mosquito nets in the sides ensure good ventilation.

Slatted frame.

The bed in the roof space measures 120 x 200cm. The slatted frame ensures comfort and stability.

Blinds for living area.

To darken the living area, blinds pull out from the roof. The blind guides in the window pillars ensure full blackout.

Removable bed extension.

Folding up the rear part of the bed next to the cupboard provides more luggage space.

Roof storage box.

Above the bench backrest is a fold-down roof storage box, easily reached from a sitting or lying position.

Drawer under the rear bench.

Removable, easily accessible drawer for extra storage space.

Flexible worktop.

The movable worktop is suspended on the kitchen range and supported by a pull-out leg.

Folding table.

The 4-legged multi-purpose table can be used inside and outside the vehicle. One of the table legs is height-adjustable to compensate for any unevenness on the ground.

Folding table in sliding door.

The table can be conveniently stored in the sliding door lining.

Double electrical socket.

Located at the end of the kitchen unit are 12V and 230V sockets.

230V external mains hookup and fresh-water filler cap.

The fresh-water tank holds 30 litres and is protected against frost.

Fluorescent light.

The fluorescent light is above the kitchen unit. On the right and left of the living area there are also two individual LED spotlights, which create a homely ambience.

Chairs in tailgate.

The standard equipment includes two folding chairs, which are stored in a compartment in the tailgate lining.

Fitted cupboards.

The rear wardrobe and cupboard have a fitted shelf, both are easily reached via a hinged cover.

Rear cupboard for gas bottle.

The 2.8kg camping gas bottle (not included) for cooking can be stored in the rear cupboard of the California to save space.

Reading light.

For bedtime reading, there is a flexible light on the bed in the elevating roof.

Central control panel.

The central control panel located above the interior mirror features an LCD display showing outside temperature, battery level, 230V connection, cool box operating status and the level indicator for the fresh and waste water tank.

Auxiliary heater.

The auxiliary heater works independently from the heating and ventilation system and can also be operated by remote control.

Standard features. (continued)

Glove compartment.
The large glove compartment is lockable. It also contains the front passenger airbag deactivation switch, which can be used when carrying a child seat.

Storage tray on dashboard.
A handy storage tray on top of the centre of the dashboard helps secure small items while travelling.

Drinks holders.
Two drinks holders are integrated into the dashboard.

2-seater bench/bed.
The rear bench/bed slides easily along two rails in the floor. Both seats are fitted with inertia reel seat belts and ISOFIX anchorage points. Folding down the backrest and the padding of the rear luggage compartment cover creates a bed measuring 114 x 200cm.

Fog lights.
The front fog lights are built into the bumpers.

Electrically adjustable, heated and folding exterior mirrors.
The body-coloured exterior mirrors have convex elements to ensure good visibility.

Control unit for electric door mirrors, windows and central locking.
Controls are within easy reach on the driver's door.

Electronic Stabilisation Programme (ESP).
Includes Active Rollover Protection (ARP), brake assist system, maximum brake support, prefill and rain brake support.

Dash mounted gear lever.
The dash mounted gear lever is perfectly placed within easy reach of the driver, enabling quick gear changes.

Heat-insulating windows.
Green-tinted windows reduce heat build-up in the interior when the sun is shining.

Double glazing.
The double glazing in the living area ensures optimal cold and heat insulation and minimises noise. The window in the sliding door and the window opposite are single-glazed.

Sliding windows.
In the living area there are sliding windows with flyscreens above the cooker/sink combination and in the side sliding door.

Adjustable steering wheel.
The steering wheel can be adjusted for height and rake, helping the driver achieve a safe and comfortable driving position.

Airbags.
The driver and front passenger airbags are fitted as standard to all Californias along with front side curtain airbags.

Comfort seats for driver and front passenger.
The comfort seats are equipped with 2 armrests and lumbar support. Driver's and front passenger seat can be swivelled through approx. 180°, but are not height-adjustable.

16" 'Miyato' alloy wheels.
6.5J x 16 alloy wheels with 215/65 R16 C tyres.

Optional features.

Climatronic air conditioning.

With the electronic air conditioning system, passengers can set their own personal journey temperatures.

Climatronic air conditioning.

As part of the Climatronic air conditioning option you get an electronic 3-zone air conditioning system with residual heat operation features and an additional control display for individual operation in the living area.

Satellite navigation system.*

The perfect solution to help you quickly get from A to B. This optional satellite navigation system replaces the standard Gamma radio and features colour display, dynamic route guidance with RDS radio and CD changer control.

*Satellite navigation unit does not play audio CDs.

Cruise control.

Speeds over approximately 20mph can be set and maintained until brake or clutch are activated.

Single seat in living area.

The optional single seat is folding, slidable lengthways and removable. It features an inertia reel seat belt and ISOFIX anchorage points (not available with 4MOTION®).

Awning.

The optional awning is 250cm wide and mounted above the sliding door in the standard attachment channel. The awning case is silver-coloured. For the paint finishes Off-road grey and Shadow blue metallic and Diamond black and Samoa red pearl effect, the case comes in black.

Removable towbar.

The total trailer weight depends on the engine fitted. With a maximum trailer weight of 2,500kg, the California is the ideal towing vehicle.

17" 'Solace' alloy wheels.

7J x 17 alloy wheels with 235/55 R17 tyres.

Volkswagen service for your peace of mind.

The Volkswagen warranty.

Three-year warranty.

All Volkswagen Californias come with a three-year/100,000 miles warranty, which protects your vehicle against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/100,000 miles (whichever is soonest) Van Centre warranty. Should the mileage exceed 100,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen Van Centre* or repairer; however, this additional warranty must be purchased before the mileage reaches 100,000. Full details of the three-year warranty are available from your authorised Volkswagen Van Centre* or repairer.

Three-year Paint warranty.

The paintwork of the California is covered against manufacturing defects for a period of three years. Naturally, the California must be cared for in compliance with the operating instructions which will be found in your owner's handbook. Please consult your authorised Volkswagen Van Centre* or repairer for full warranty details.

12-year Body Protection warranty.

The internal body sections and panels of the California are covered against rusting through from the inside for 12 years. Naturally, the California must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen Van Centre* or repairer for full warranty details.

Service intervals for Diesel Engines.

Volkswagen has always been dedicated to protecting the environment. That's why all Californias come with a LongLife service regime. As a result of longer service intervals the engine oil requirement can be significantly reduced over the vehicle's total life, which results in less waste oil to dispose of and reduces the burden on the environment.

The LongLife service regime is so called because there are no set service intervals. The interval between services, depending on how you drive your vehicle and the conditions of use, can be anywhere from 9,000 miles up to a maximum of approximately 18,000 miles or 24 months (whichever comes first). The Service Interval Display in the instrument panel will indicate when a service is required.

This LongLife service regime has been made possible due to the development of new Volkswagen engines with the latest technically advanced long-life oils. These engines use built-in sensors that continually monitor the oil quality, making it possible to enjoy reliable and confident motoring.

If you would like a more traditional service regime the California can be adapted by your authorised Volkswagen Van Centre* or repairer to the Time/Distance regime. This can be done at the point of vehicle sale or when an inspection service is carried out. An oil change is required at every 10,000 miles on the Time/Distance regime.

All mileages are approximate as the system uses kilometres as the distance measure. Please consult your authorised Volkswagen Van Centre* or repairer for full details.

Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen Van Centre at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Volkswagen Insurance.

Competitive insurance premiums are available to Volkswagen owners through Volkswagen Insurance Service (Great Britain) Limited. Volkswagen Insurance guarantees that all repair work is undertaken by an authorised Volkswagen Van Centre* or repairer. For a quotation, telephone Linkline on 0845 600 8006.

Extended warranty.

You may purchase additional vehicle warranty protection. Please contact your authorised Volkswagen Van Centre* or repairer for further details.

Volkswagen Finance†.

Volkswagen Finance offers a dedicated service to meet the needs of both the business user and the private motorist. We can help you choose the right type of finance and will tailor the package to meet your specific requirements. Please consult your authorised Volkswagen Van Centre for details.

† Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited.

Volkswagen Roadside Assistance.

Every new Volkswagen purchased benefits from a comprehensive recovery and assistance package across the UK for a full three years, operating 24 hours a day, 365 days a year. Fully trained technicians are able to diagnose and repair most problems at the roadside, using Volkswagen equipment and parts. Where this is not possible we will recover your vehicle to a Volkswagen Van Centre and arrange for a temporary vehicle or accommodation. We also include support for you whilst driving in Europe during your first three years. These services are subject to Terms and Conditions. For full details, please contact your authorised Volkswagen Van Centre* or repairer.

CO₂ Emissions.

The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory fitted options may emit higher levels of CO₂.

The CO₂ figure quoted for each vehicle is the maximum possible. The unladen weight of the vehicle is calculated by range at the time of manufacture and the maximum possible CO₂ emission for that weight range is applied according to the Council Directive 80/1268EEC as amended by Commission

Directive 1999/100/EC on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

* The Volkswagen California is available through participating Volkswagen Van Centres. For more information about your nearest participating Volkswagen Van Centre, call 0800 717131.

Please note: Some of the vehicles shown may be fitted with optional equipment at extra charge. All data given and specifications are in accordance with information available at the time of going to print and are subject to change without notice. Vehicles not in current UK stock and customer order vehicles may take a number of weeks for delivery. Certain combinations of vehicle specifications and factory fitted extras are not compatible and therefore all orders received are subject to confirmation. Please check details and availability with an appropriate authorised Volkswagen Van Centre at the time of ordering. The Volkswagen California is available through participating Volkswagen Van Centres.
